Editorial Index to Volume 211
January to December 1983

A
Aabacas Engineering Co Ltd. You need lifting gear? (Service Centre), 53
Acrow Tubes Ltd — a force in today's tube market, 193
Advanced refining process for the production of ultra clean steel by Yukio Tani (Technologies of the future), 565
Alloy steel scrap sector report upturn, 184
Analytical Techniques
Atomic absorption spectrophotometry in the steel industry by Bernard Field, 38
The determination of carbon, sulphur and gases in steels by Dave Newbold, 142
On-site identification of steel products by A D Ambrose, 264
Annual Technical Review
Recent developments in cokemaking, 398
Control of fouling in coke oven gas systems by W V Gillies, 400
Selection criteria for an optimum ladle refining facility by K B Kale, R B Dilip, J Schumann and W Burgmann, 404
Smelting reduction process from Kawasaki is fuel flexible, 410
Direct reduction and smelting using plama technology, 412
Kawasaki Steel's multipurpose continuous annealing line, 413
BSC Annual Report and Accounts, 416
Machinability of special steels, 417
AOD refining at the heart of scrap reclamation, 185
Arc-furnace technology — recent developments Cambridge Electroheat Conference, 196
Atomic absorption spectrophotometry in the steel industry by Bernard Field, 38
Austria's special steel producer, 618

B
Battelle-Geneva-Metallurgical research, 467
BS 970: Part 1: 1983. A user's view of the recent revision by C T Wilshaw, 526
Buyer's guide — Analytical techniques
Atomic absorption instrumentation, 42
Carbon, sulphur and gases instrumentation, 147
Portable analysis equipment, 266
BISPA Annual Review, 117
Developments during 1982 at Manchester Steel Ltd, 134
Continuous casting to forging specification at F H Lloyd & Co Ltd, 136
Tremorfa Steel Works caster enhancement scheme, 138
BSC
BSC Ravenscraig and Hunterston Works — Experience in operation and maintenance of materials handling — mechanical handling by M D Macphail, 10
BSC Teesside Laboratories — Mass flow bunkers — a problem solved mechanical handling, 15
Coated Products — Tafarnaubach Works — Colorcoat line wins Wales Gas Energy award, 44
DEC — the engineering contracting arm of BSC, 82
Port Talbot Works — continuous casting by Brian Cooper, 235
Conquest keeps BSC Stocksbridge at the forefront of technology by Brian Cooper, 242
Scunthorpe completes concast trio by Jonathan Mitchell, 249
Coil coating at the British Steel Corporation, 348
BSC Annual Report & Accounts (Annual Technical Review), 416
BSC revives UK chainmaking, 515
BSC goes for DAI in Wales, 572
Coal preheating milestone for BSC, Orgreave, 564
Bird Group invests £2M in the future (scrap feature), 178
Big enough to cope yet small enough to care (Unbrako Steel) by Jonathan M Mitchell, 205
Blast Furnace Technology feature
Recent developments in blast furnace technology by Dr-Ing Heinrich and Ing Rettweiter, 594
The Koverhar blast furnace supervising system by Veikko Manninen and Ilkka Pesonen, 603

C
Chainmaking — BSC revives UK chainmaking, 515
Coal preheating milestone for BSC, Orgreave, 564
Coated Strip — coil coating pioneered by (Coil Coating feature), 360
Coil Coating
Coil coating — the UK scene by NS Makins, 347
Coil coating at the British Steel Corporation, 348
Thin film on thin gauge from Custom Coil, 356
H H Robertson meets 80's challenge, 359
Coil coating pioneered by Coated Strip, 360
Cokemaking — recent developments (Annual Technical Review), 398
Coke oven gas systems-control of fouling in by W V Gillies (Annual Technical Review), 400
Continuous annealing line-multipurpose — from Kawasaki Steel (Annual Technical Review), 413
Continuous Casting feature
Continuous casting at BSC Port Talbot Works, 235
Conquest keeps BSC Stocksbridge at the forefront of technology, 242
Scunthorpe completes concast trio, 249
Developments in the continuous casting of special steels by Richard Welburn, 254
A new process for the continuous casting of steel, 260
Continuous casting at BSC Port Talbot Works by Brian Cooper, 235
Continuous casting of special steels — Developments in by Richard W Welburn, 254
Continuous casting of steel — a new process for, 260
Corrosion resistance of Zn/4% Al and Zn/7% Al alloy coatings compared to Zn and Zn/54% Al alloy coatings by H E Townsend and C F Meitzner, 472
Cumbria Engineering — a new British Steel profit centre, 198
Custom Coil — thin film on thin gauge from (Coil Coating feature), 356
Crown aids European coil coaters by Geoff Dodd, 473
CENIM research supports Spanish industry, 523
CRM — Benelux metallurgical research (Research and Development), 76
CSM serving Italian steel (Research and Development), 189

D
DEC — the engineering contracting arm of BSC, 82
Direct Reduction
Seminar on economics of direct reduction held in Holland, 362
Latest developments at Krupp in the use of coal for direct reduction by K H Ulrich and D Neuschütz, 366
Scaw metals coal fuelled direct reduction plant at Germiston, South Africa, 369
SL/RN Coal-based direct reduction, 371
Up date on HYL plants by Jesus M Pena, 373
Trends in iron making technology by Bradford G True, 375
The KR Process — a cheap route for hot metal production by G Papst, 377
Pulverised coal is main fuel in Sumitomo's iron-making process, 378
The determination of carbon, sulphur and gases in steels by Dave Newbold (Analytical Techniques), 142
Direct reduction and smelting using plasma technology (Annual Technical Review), 412
Downing Steel steps confidently into the new year by Philip Carden (Service Centre), 99
Dust collection — secondary dust collection in modern steelmaking plants by Winfried Högner, 517

E
Elkem A/S steelworks in Norway productivity improvements, 271
Export to survive for UK scrap industry by R E Robinson (Scrap feature), 177
85t electric arc steel melting furnace — effects of water cooled wall panels on the operating results by Johannes Drüppel and Jürgen Ziesshang, 201
Electric steel plant commissioned at Krupp Stahl in Bochum, 45
Estel NV — Dissolution agreed European File by Peter Wood, 8
European File by Peter Wood
Estel NV — Dissolution agreed, 8
French Predictions, 8
Korf-rescue operation underway, 64
Moderators make recommendations on FRG steel structure, 112
Thyssen sales up, 113
Group formation still experiencing difficulties, 172
Klöckner joins crisis trail to Bonn, 172
Korf blames government, 232
Klöckner ousted from steel grouping, 232
Disappointment over steel restructuring plans claim commission, 294
French steel supremo says plans must be revised, 294
West Germany falls back technologically, 344
Belgian steel restructuring plans calls for closure of two steelworks, 345
Sales drop for Thyssen but research continues, 345
Private sector in Italy attack government cutbacks, 442
Losses at Voest-Alpine deferred by diversification, 442
Spanish steel rationalisation resisted, 443
French predictions revised—European File by Peter Wood, 8

F
Fibre technology reinforces world construction by Jonathan Mitchell, 318
Fire and overheat detection on belt conveyors, 615
FRG Steel structure-moderators make recommendations on — European File by Peter Wood, 112
French predictions revised—European File by Peter Wood, 8

G
GKN Steelstock extends its profiling service (Service Centre), 53

H
An Historical Review (part 4) by Harold Edwards.
The production of wide mild steel sheet and strip with particular reference to the cold reduction process, 86

I
Industrial water thrift, 321
Injection technologists meet in Sweden, 420
Iron ore suppliers meet steelmakers at symposium in Athens, 268

K
Kanban steel production — the imperatives of by Jonathan Aylen (Technologies for the future), 558
Korf — rescue operation underway (European File), 64

L
Lee stockholding companies recover well (Service Centre), 215
LD capacity-Worldwide survey, 73

M
Machinability of special steels, 417
Mechanical Handling, 10
Mechanical handling equipment in steel mills by Dipl-Eng Eduard Meisinger, 17
MEFOS, The Royal Institute of Technology and Jernkontoret — Research and development in Scandinavia, 568
Melting Pot by Keith Gale
End of an era — A chimney makes news — A plethora of initials, 48
Phoenix a closer look — Cores for sale — Dry Coke cooling — Is it enought to be up to date, 93
Metallurgists and chemists — Oil Prices — What happened to spelter? — Metal bashing, 160
Putting ideas to work — Assembling a steam hammer, 214

Editorial Index to Volume 211
January to December 1983

A
Aabacas Engineering Co Ltd. You need lifting gear? (Service Centre), 53
Acrow Tubes Ltd — a force in today's tube market, 193
Advanced refining process for the production of ultra clean steel by Yukio Tani (Technologies of the future), 565
Alloy steel scrap sector report upturn, 184
Analytical Techniques
Atomic absorption spectrophotometry in the steel industry by Bernard Field, 38
The determination of carbon, sulphur and gases in steels by Dave Newbold, 142
On-site identification of steel products by A D Ambrose, 264
Annual Technical Review
Recent developments in cokemaking, 398
Control of fouling in coke oven gas systems by W V Gillies, 400
Selection criteria for an optimum ladle refining facility by K B Kale, R B Dilip, J Schumann and W Burgmann, 404
Smelting reduction process from Kawasaki is fuel flexible, 410
Direct reduction and smelting using plama technology, 412
Kawasaki Steel's multipurpose continuous annealing line, 413
BSC Annual Report and Accounts, 416
Machinability of special steels, 417
AOD refining at the heart of scrap reclamation, 185
Arc-furnace technology — recent developments Cambridge Electroheat Conference, 196
Atomic absorption spectrophotometry in the steel industry by Bernard Field, 38
Austria's special steel producer, 618

B
Battelle-Geneva-Metallurgical research, 467
BS 970: Part 1: 1983. A user's view of the recent revision by C T Wilshaw, 526
Buyer's guide — Analytical techniques
Atomic absorption instrumentation, 42
Carbon, sulphur and gases instrumentation, 147
Portable analysis equipment, 266
BISPA Annual Review, 117
Developments during 1982 at Manchester Steel Ltd, 134
Continuous casting to forging specification at F H Lloyd & Co Ltd, 136
Tremorfa Steel Works caster enhancement scheme, 138
BSC
BSC Ravenscraig and Hunterston Works — Experience in operation and maintenance of materials handling — mechanical handling by M D Macphail, 10
BSC Teesside Laboratories — Mass flow bunkers — a problem solved mechanical handling, 15
Coated Products — Tafarnaubach Works — Colorcoat line wins Wales Gas Energy award, 44
DEC — the engineering contracting arm of BSC, 82
Port Talbot Works — continuous casting by Brian Cooper, 235
Conquest keeps BSC Stocksbridge at the forefront of technology by Brian Cooper, 242
Scunthorpe completes concast trio by Jonathan Mitchell, 249
Coil coating at the British Steel Corporation, 348
BSC Annual Report & Accounts (Annual Technical Review), 416
BSC revives UK chainmaking, 515
BSC goes for DAI in Wales, 572
Coal preheating milestone for BSC, Orgreave, 564
Bird Group invests £2M in the future (scrap feature), 178
Big enough to cope yet small enough to care (Unbrako Steel) by Jonathan M Mitchell, 205
Blast Furnace Technology feature
Recent developments in blast furnace technology by Dr-Ing Heinrich and Ing Rettweiter, 594
The Koverhar blast furnace supervising system by Veikko Manninen and Ilkka Pesonen, 603

C
Chainmaking — BSC revives UK chainmaking, 515
Coal preheating milestone for BSC, Orgreave, 564
Coated Strip — coil coating pioneered by (Coil Coating feature), 360
Coil Coating
Coil coating — the UK scene by NS Makins, 347
Coil coating at the British Steel Corporation, 348
Thin film on thin gauge from Custom Coil, 356
H H Robertson meets 80's challenge, 359
Coil coating pioneered by Coated Strip, 360
Cokemaking — recent developments (Annual Technical Review), 398

Fibre technology reinforces world construction by Jonathan Mitchell, 318
Fire and overheat detection on belt conveyors, 615
FRG Steel structure-moderators make recommendations on — European File by Peter Wood, 112
French predictions revised—European File by Peter Wood, 8

G
GKN Steelstock extends its profiling service (Service Centre), 53

H
An Historical Review (part 4) by Harold Edwards.
The production of wide mild steel sheet and strip with particular reference to the cold reduction process, 86

I
Industrial water thrift, 321
Injection technologists meet in Sweden, 420
Iron ore suppliers meet steelmakers at symposium in Athens, 268

K
Kanban steel production — the imperatives of by Jonathan Aylen (Technologies for the future), 558
Korf — rescue operation underway (European File), 64

L
Lee stockholding companies recover well (Service Centre), 215
LD capacity-Worldwide survey, 73

M
Machinability of special steels, 417
Mechanical Handling, 10
Mechanical handling equipment in steel mills by Dipl-Eng Eduard Meisinger, 17
MEFOS, The Royal Institute of Technology and Jernkontoret — Research and development in Scandinavia, 568
Melting Pot by Keith Gale
End of an era — A chimney makes news — A plethora of initials, 48
Phoenix a closer look — Cores for sale — Dry Coke cooling — Is it enought to be up to date, 93
Metallurgists and chemists — Oil Prices — What happened to spelter? — Metal bashing, 160
Putting ideas to work — Assembling a steam hammer, 214

An Ironworks on glass — Keeping secrets — Oxygen starvation — A child's guide to rust, 279
Strategic minerals, 329
How are the order books — Export possibilities — DR Steel in Britain — Dogs, peacocks and hammers, 329
Cast iron in the garden — Never fails to impress — Coke re-discovered? — 80th foundry conference — Getting smaller, 379
What is steel? — Heavy industry in the post — Steel afloat, 424
Keeping the workforce informed — You can't please everybody — Metric Mess, 478
Splat — Steel in small doses — Flag of distress — Metric tailpiece, 531
Steel castings by the million — Steel, a tourist attraction? — How big is a barrel? — Iron Age-Steel Age, 579
Does the name fit? — A continuous casting pioneer — The sound of steel, 622
Metallurgical research at Battelle-Geneva (Research and Development), 467
Metals Society meets in London, 319

N
NASS Conference
An active year in a difficult market, 425
Customers are more important than competitors says NASS president, 428
Where do we go from here?, 429
Economics, energy and world trade, 430
Investment essential in UK infrastructure, 430
NASS senior management study tour in Italy (Service Centre), 479
Nickel alloys — VDM builds cold rolling mill for, 322
Nine decades of steelworks support services, 471

O
On-site identification of steel products by A D Ambrose (Analytical Technique), 264
Optimum ladle refining facility-selection criteria by K B Kale, R B Dilip, J Schumann and W Burgmann (Annual Technical Review), 404
Osprey — a new method of metal forming by Jonathan Mitchell, 152
Oxygen steelmaking today by Keith Gale, 68
Oxygen lances — the end of accidents with thanks to improved equipment, 474

P
Patent Abstracts, 274
Pipe and tube applications of special steels (Sandvik Ltd), 208
Plate-tailor made by Spartan Redheugh Ltd, 448
Pollution control feature
Environmental pollution control at Hoogovens, 300
Circulation water treatment for a hot rolling mill by W Weber, 300
Pollution developments at IHI, 303
Acoustic cleaning of a UHP electric arc furnace, 304
Water pollution in the steel industry by Dr David Owen, 306
Noise is the problem, 310
Foreword by Giles Shaw, Parliamentary Under-Secretary of State at the Department of the Environment in the last Government, 296
Current attitudes towards the control of pollution in the steel industry by M Thomas, 296
Cast-house dust collection — a contribution to modern blast furnace technology by Dr Hans-Jurgen Klingelhöfer and Manfred Eisenbarth, 298
Preliminary results of the first tinplate mill Vidimon-Vidiplan shape control system by A G Reinen and A A van der Poel, 575
Quench and temper facility extends market for TI Desford, 571

R
Radio control in the steelworks, 617
Raw Materials Feature
Suitability of sponge iron as a charge material in iron and steelmaking units by Amit Chaterjee and Ramesh Singh, 498
How can steel manufacturing processes react to changes in raw materials supplies, Dr Ing Dirk Springorum, 506
Some European ferro-alloys suppliers, 513
Refractories seminar held in Sheffield, 472
Research and Development
CRM — Benelux metallurgical research, 76
CSM — serving Italian steel, 189
Battelle — Geneva — Metallurgical research, 467
CENIM research supports Spanish industry, 523
MEFOS, The Royal Institute of Technology and Jernkontoret. A profile, 568
VDEh aids quality steel production in West Germany, 612
Rolling Feature
Strip into shape by S G Stubbs, 444
Tailor-made plate by Spartan Redheugh Ltd, 448
Stelco's hot strip mill incorporates innovative coilbox, 452
Automatic shape detecting and controlling technology, 458

S
Scotland's seamless tubeworks by Jonathan Mitchell, 460
Secondary dust collection in modern steelmaking plants by Winfried Högner, 517
Secondary steelmaking at Krupp's Bochum electric steelworks, 608
Service Centre — Compiled by Philip Carden
You need lifting gear? Aabacas Engineering Company Ltd, 50
GKN Steelstock extends it profiling service, 53
Downing Steel steps confidently into the new year, 99
British invention brings roll grinding economies to Port Talbot, 161
Lee stockholding companies recover well, 215
NASS associate membership opened to equipment suppliers, 218
Winchester's three rivers, 218
Browne & Tawse is again Green's recommendation to investors, 280
Meeting urgent calls for special steels (SKF), 281
Steel policies as part of a wider industrial policy, 330
Steelstock processing machines from Wyko, 332
Selling is believing, 382
Metallurgy for stainless steel stockholders, 432
Bon Accord at Hitchin, 433
NASS senior management study tour in Italy, 479
More space, new equipment for Steelstock at Brandon, 481
How Sandvik has met a changing market environment, 533
Dima looks on the brighter side of industry, 533
Lilleshall — the company and the village, 534
Heavy investment by SMS in metal processing facilities, 580
Computer update at SKF Steel's Service Centre at Wednesfield, 581
Alloy and Metal's special steels seminar in London, 582
Tom Bendhem — the man who put youth at the helm, 625
Scrap Feature
Export to survive for UK scrap industry by R E Robinson, 177
Bird Group invests £2M in the future, 178
The genuine requirement for steel scrap today by Robert Cooper, 181
Reorganised Federation to meet upturn in scrap demand, 182
Alloy steel scrap sector report upturn, 184
AOD refining at the heart of scrap reclamation, 185
Scrap demand, Federation-reorganised to meet upturn in, 182
Sheerness — the birth of a steelworks, 150
Skodaexport aids Czechoslovak steel industry, 188
Smelting reduction process from Kawasaki is fuel flexible (Annual Technical Review), 410
Spray forming as applied to steel components by Prof A R E Singer (Technologies for the future), 554
Sponge-iron suitability as a charge material in iron and steelmaking units by Ami Chaterjee and Ramesh Singh, 498
Steelmaking technology — some thoughts on steelmaking technology in the year 2000 by Prof Julian Szekely (Technologies for the future), 551
Steelplant — A modulised flexible steelplant by Sven Eketorp and Ulf Holmberg (Technologies for the future), 562
Steel scrap today — the genuine requirement by Robert Cooper, 181
Stelco's hot strip mill incorporates innovative coilbox, 452

T
Think Steel — Structural Steel Design Awards 1983, 614
Technologies for the future
Some thoughts on steelmaking technology in the year 2000 by Prof Julian Szekely, 551
Spray forming as applied to steel components by Prof A R E Singer, 554
The imperatives of kanban steel production by Jonathan Aylen, 558
A modulised flexible steelplant by Sven Eketorp and Ulf Holmberg, 562
Advanced refining process for production of ultra clean steel by Yukio Tani, 565
TI Desford — Quench and temper facility extends market, 571
Thyssen sales up — European File by Peter Wood, 113
